

NOVA SERIES LED DRIVING LIGHTS

New in the LED driving light range: the TRALERT® Nova Series. The upgrade for your vehicle in terms of appearance and functionality. The Nova Series consists of two models: a variant with black housing (WD-15013) and a variant with white housing (WD-15013W). Both driving lights have a light output of no less than 13.600 lumens, resulting in excellent visibility under all conditions.

This LED driving light series from TRALERT® also features duo-color daytime running lights and built-in flash function. You can choose from amber or white daytime running lights. The amber flash in the distinctive round shape features four flash patterns for better visibility. This makes the driving light the ideal combination of style & functionality for your truck or 4x4.

Certification & warranty:
