

# TRALERT® 140 SERIES

**The well-known TRALERT® hamburger rear light, fully certified.**

The 140 series is TRALERT®'s classic LED hamburger lamp, which has become indispensable in the truck and trailer world, for example. The 140 series from TRALERT® consists of different types of rear lights with their own functionalities, all in the same style. There is a rear light with brake light and indicator, a fog light, a reverse light and a fog and reverse light combination.

The 140 series is TRALERT®'s classic LED hamburger lamp, which has become indispensable in the truck and trailer world, for example. The 140 series from TRALERT® consists of different types of rear lights with their own functionalities, all in the same style. There is a rear light with brake light and indicator, a fog light, a reverse light and a fog and reverse light combination.

All these variants are available with traditional housing without cable or with slim housing and 150 cm cable. The red/orange rear light has D-homologation, which means that two lights per side may be mounted legally. Accessories are also available in the shape of a chrome ring (Art. VAC-140CB) and a low housing (Art. VAC-140LB).
